Work Package 8. Project management

Work package 8 combines activities for the internal management of the project among the partners in the COEXIST consortium. Its specific objectives are:

- Develop a Consortium Agreement ensuring effective management of the consortium and fair and reasonable conditions for the partners.
- Maximize the efficiency and effectiveness of the work performed within the project and form an efficient Executive Board and relevant WP groups, thus optimising communication within the consortium.
- Ensure and maintain good contact between the project and the European Commission.
